Newsbite

Great news for all those at Red Sea Diving College came through in March. They have received the honour - for the second year running - *Dive Centre of the Year* as voted for by readers of the United Kingdom based DIVER Magazine.

A spokesperson from Red Sea Diving College told us that this was “Fantastic news. We are very thrilled and very proud to receive the DIVER award for a second year running”.

“Certainly, we will not rest on our laurels - this award will encourage us to further develop our diving services and our projects in defence of the wonderful marine environment of the Red Sea throughout 2008”.

Staff at the College, based in the heart of Naama Bay, Sharm el Sheikh, are planning lots of exciting new projects to be carried out during the next 12 months.
